

Allen Dulles

24 January 1958

Mr. Dulles:

25X1 You will recall that Shef, [redacted] (CI) and [redacted] (Security) recently told you about a possible Bureau request to another government department to set up a program similar to our project [redacted]. Jim called this afternoon and said that he and Shef had just completed a most "agreeable" meeting with [redacted] -- all ended well, the Bureau is most anxious for us to 25X1 continue [redacted] as a project of common concern, will furnish us leads and will share in the "take" of information of interest to the 25X1 FBI.

25X1
